**Actions**

**Granting of Release**

The University is entitled to determine the circumstances in which it will provide or refuse to provide a release letter. Where a student requests a transfer within the period of six months of commencement of their principal program the University or its nominated officer will assess the request for transfer against this procedure.

Students must co-operate with the University staff or its nominated officers (in the case where a student is studying at a partner provider nominated officer means partner provider staff) and attend any interviews or other appointments scheduled for them including in respect of support services provided by the University or its Partner Providers.
Applying to transfer between registered providers does not preclude students from the requirement to enrol on time. Non enrolment will not automatically result in a transfer between registered providers. However it will result in the student being reported to DIBP via PRISMS for failing to enrol.

A release letter will be automatically granted if:

- The student is government sponsored and that government sponsor provides written support for the change, as it considers the change to be in the student's best interests.
- The University has ceased to be registered or the program in which the student is enrolled has ceased to be registered.
- The University has a sanction imposed on it that prevents the student from continuing his or her principal program.
- The student has not met the entry requirement for the University program after making a genuine effort to do so.

To apply to transfer to another registered provider within the first 6 months of the student's principal program, the student must demonstrate compassionate or compelling circumstances that cannot be addressed by the University or partner provider academic and welfare support services. Students are required to provide documentation to support their application to transfer to another registered provider.

Compassionate or compelling circumstances may include:

- Medical grounds, which may include, but are not limited to, serious illness or injury.
- Death of a student’s immediate family member evidence by a death certificate.
- Other compassionate circumstances where adequate evidence can be provided to show reason for release.

Refusal of Release

The University may refuse an application for release in the following circumstances:

- The student has not completed the first four weeks of the principal program in which he or she is enrolled and has not accessed the full range of support services available at the University or partner provider teaching location.
- The University or its nominated officer forms the view that the student is trying to avoid being reported to DIBP for failure to meet the University's attendance or academic progress requirements.
- The student is transferring to a similar program with another provider.
- The student is applying to transfer to a program with a lower qualification without consultation with program or academic coordinator.
- If the transfer may jeopardise the student's progression through a package of programs.
- The transfer to the new program may be detrimental to the student's well being and/or career objectives as stated in the student's original admissions application.
- The student's personal statement is inconsistent with other information provided to the University.
- Changing to a provider with programs at a lower fee.
- Changing to a provider to be with friends.
- Accommodation or personal issues where the student can receive assistance from the University or partner provider.
- The student has outstanding debts.
- The student is transferring to a non Streamlined Visa Processing (SVP) provider and may be in breach of his/her student visa.

   iii. advice that if applicable the student may apply for a refund in accordance with the University's Refund for International Students Policy and Refund for International Students Procedure.
7. If CUP decides not to grant a Transfer Between Registered Providers, the letter sent to the student is to include:
   i. the reasons for the decision not to grant a transfer between registered providers
   ii. if the reason is because the documents provided by the student do not, in the view of the nominated officer provide adequate grounds to justify the transfer, the student must be advised what additional documentation should have been lodged with his/her application
   iii. advice that he or she may freely transfer after completion of 6 calendar months of his or her Principal Program; and
