Policy Statement

Federation University Australia (the University), through the application of its Health and Safety Policy and Procedures is committed to providing and maintaining, as far as is reasonably practicable, a healthy and safe environment for its staff members and members of the University community.

If a staff member sustains a work caused injury or illness, the University is committed to providing them with support and assistance pursuant to the provisions of the Workplace Injury Rehabilitation and Compensation Act 2013 and in accordance with the University’s Injury Management Procedures.

The University encourages early injury reporting to support its early intervention approach to injury management. The injury management process will commence as soon as possible after a work-related injury/illness is reported, taking into account the injured staff members’ psychological and physical recovery.

The University aims to support its staff in safely remaining at work whilst they recover from an injury or illness. If a staff member ceases work due to injury, the University will support a safe return to work, considering the staff member’s current work capacity and applying the return to work hierarchy to provide suitable duties.

Whenever possible, the University will aim to support an injured staff member in their normal position with modifications as necessary.

If an injured staff member is unable to ever resume their pre-injury duties, the University will consider offering alternative employment at the University, in a position that complies with the staff member’s ongoing medical restrictions. Any alternative employment offered will be in accordance with the University’s operational requirements. If no suitable alternative employment is available, an Occupational Rehabilitation Provider may be engaged through the University’s WorkSafe insurer to assist the staff member in finding alternative employment within another organisation.

The University will, subject to operational requirements, aim to provide support and assistance to a staff member resuming work following a personal injury, illness or disease. This would be upon the presentation of a medical certificate certifying the staff member fit to undertake modified pre-injury employment.

Injury management is a shared responsibility, requiring cooperation and collaboration between the key stakeholders in order to achieve successful outcomes for both the injured staff member and the University.

Confidentiality and Privacy

The University protects the confidentiality of information obtained in respect to a staff member’s injury or illness in accordance with the provisions of the Workplace Injury Rehabilitation and Compensation Act 2013, the Health Records Act 2001, the Privacy and Data Protection Act 2014 and the Information Privacy Principles.
Responsibility

The Director, Human Resources has responsibility for the review and implementation of this policy.

The Injury Management Coordinator is responsible for:

• managing, monitoring and reviewing this policy;
• the ongoing management and monitoring of the University’s WorkCover claims;
• consulting with staff members, supervisors, treating health practitioners and occupational rehabilitation providers to develop sustainable return to work options;
• providing injured staff members with clear, accurate and current details of their return to work arrangements;
• monitoring progress of return to work plans;
• assisting injured/ill staff members in returning to work from their work-related injury/illness as soon as they are medically able to do so.

Supervisors are responsible for:

• ensuring that staff under their supervision observe University policies and procedures;
• promptly advising the Injury Management Coordinator if someone in their School or Section suffers an injury or illness at work where they may require treatment or assistance or if they become aware of a staff member having an injury or illness that may be work related.
• promptly forwarding (via email) any paperwork relating to a staff member’s injury to the Injury Management Coordinator;
• working with an injured staff member, the Injury Management Coordinator and occupational rehabilitation providers (when engaged) to identify and develop return to work options; and
• maintaining contact with and providing support to their staff members in returning to work following injury or illness.

Injured staff members are required to:

• provide all documentation related to their work-related injury as soon as practicable to the Injury Management Coordinator;
• provide relevant information to their supervisor, Injury Management Coordinator, treating health practitioners and rehabilitation provider about their work-related injury/illness, treatment and recovery;
• make reasonable efforts to return to work in suitable or pre-injury employment and make reasonable efforts to participate in the return to work process;
• discuss return to work offers with treating health practitioners and provide any feedback to the Injury Management Coordinator and/or rehabilitation provider;
• actively participate and co-operate in assessments of capacity to work, rehabilitation progress or future employment prospects;
• actively participate and co-operate with the insurer in an interview to enhance your opportunities to return to work, if requested to do so; and
• actively participate in the Return to Work Issue Resolution process.
